

M

id South Drilling

is a family owned and operated drilling, blasting and crushing company serving the Mid-South

since it was founded in January

1998. At first the business was a

drilling

and

blasting

company.

SEAFORD FAMILY

In 2006

Mid South expanded to include

crushing. Whatever the on site

requirements, Mid South Drilling

can provide the equipment to get

the job done safely, accurately,

professionally, and on-time.

OUR REPUTATION

Our staff of highly trained and qualified individuals possess many years of drilling and blasting expertise under a variety of field conditions. If you have a large, medium or small scale drilling, blasting or crushing project then partner with Mid South Drilling, Inc. because they want to help you finish the job on time!

OUR EQUIPMENT

One of the most critical components to professional blasting results is the quality of the drilling. Mid South's drills and operators are among the best in the industry. Professional drillers operating reliable modern drilling equipment to assure contractors of precise, dependable and on schedule production.

Mid South maintains a fleet of 10 drills for standard production and specialty drilling. These drills are high production machines capable of meeting the requirements of the toughest projects. In 2006, Mid South purchased a portable crusher for the purpose of converting shot rock or demolition rubble into smaller, reusable pieces.

OUR SAFETY

Mid South Drilling is MSHA certified. All blasters participate in extensive training to ensure their safety along with other employees and any dwelling in close proximity to the blast.

The professionals at Mid South spend hours planning to insure all federal and state guidelines are met prior to any blasting. Mid South's safety record is key to their success which includes repeat and referral business!

"I first worked with Mid South Drilling & Blasting in 2005 while constructing a portion of the NC 98 Bypass for NCDOT.... Particularly impressive was the professionalism of the onsite personnel. Their attention to detail enabled them to operate safely and efficiently. They were responsive to our concerns and never allowed breakdowns or other difficulties to impact our schedule. Without a doubt the integrity and good character of the Mid South organization created a highly productive work environment that contributed to the early completion of the project which was a factor in winning a Pinnacle Award for best highway project."

William Hammock, Assistant Project Manager
