

Shelter Creek Quarry, LLC

July 30, 2009

Mr. Jeff Seaford
President
Mid South Drilling & Blasting
PO Box 998
Mocksville, NC 27028

Dear Jeff,

I'm taking the time to write this letter in order to thank you and your men on a job "well done". From the first days of our meetings, you have done what you said you would do as far as drilling and crushing for us at our mine site. You have saved us thousands of dollars, and your people can be counted on to get the job done!

One of your biggest assets is that your employees are MSHA qualified and have successfully passed on MSHA inspection on site. Because your equipment is maintained in an above average fashion, you did not get a negative write-up by the federal inspector. Jeff as an MSHA trainer, I can verify that your employees are extremely safety conscious and take suggestions to heart.

Jeff, we have used your men and equipment over a two year period and we have benefited with production cost savings and increased productivity.

I really feel that when your employees are working at our mine site, I do not have to watch over them at all. Your foreman Eric Presnell and superintendent Jimmy Marrs are a class act.

Thanks for your help and I feel we have established a long lasting business relationship where we will continue to call on you to crush stone.

Respectfully submitted,

Stephen Dorenda
